YITONG QU

Los Angeles, CA
yitongqu@outlook.com

SUMMARY

Designer working across architecture, transportation, healthcare and residential. Currently leading design on a $60M+ community college building and founded a design and renovation consultancy. Fluent in AI-driven workflows from generative imagery to automation, and quick to bring new tools into real projects.Works well with clients and contractors.

SKILLS

Revit, AutoCAD, Bluebeam, Adobe Suite, Microsoft Office

Rhino (Grasshopper), SketchUp, Maya, Blender, V-Ray, Enscape, Lumion, Octane

Unity, Unreal Engine, C#, Python, Miro, Figma

User Experience Design, Architectural Design, VR/AR Design, Computational Design, Data Visualization, 3D Modeling & Rendering, Client Consultation

EDUCATION

University of California, Los Angeles **Aug 2021 - Jun 2022**

Master of Science in Advanced Architecture and Urban Design

Wuhan University, Wuhan, China **Sep 2016 - Jun 2021**

Bachelor of Architecture

Thesis design with honor, *Wuhan Business School Library Design*

EXPERIENCE

West Edge Architects, El Segundo, CA

Design Lead / Project Coordinator **Feb 2025 - Present**

- Lead schematic design and design development on the firm's major projects, including a $60M+ community college building.
- Coordinate consultants, contractors, and the internal team to work through design, technical, and construction issues while keeping projects in line with their goals and design intent.
- Set the visual direction for renderings and diagrams, and review all presentation materials before they go to clients.

Commaplus, Los Angeles, CA

Founder **Jul 2024 - Apr 2025**

- Founded a design consultancy for renovation and ADU, focused on delivering good design on a realistic budget.
- Led client consultations from initial goals through scope, budget, and design options, finding ways to have the best design quality with the lowest cost.
- Developed a platform that educates clients on design and construction basics, helping homeowners understand the process, costs, and trade-offs.

Zakian Woo Architects, Culver City, CA

Architectural Designer **Jan 2024 - Jan 2025**

- Worked on healthcare projects through schematic design and drawings, including drafting, presentation packages, and on-site surveys.
- Managed the project Revit models and the handoff between Revit and AutoCAD.
- Handled day-to-day communication with structural and MEP engineers, vendors, and contractors, and joined site visits, field measurements, and client meetings.

Hyperloop Transportation Technologies, Los Angeles, CA

Designer **Aug 2022 - Dec 2023**

- Designed and planned passenger stations, a freight distribution center, and capsule layouts for a high-speed transportation system.
- Station designs improved passenger flow by 30% in simulations.
- Also worked on 3D modeling, diagrams, graphic design, UI/UX, and event design.

PROJECTS

Math and Science Building of a Community College - West Edge Architects **2025-Present**

$60M+, 80,000+ sq ft building and site master plan for a community college in the Los Angeles area. Leading schematic design and design development, coordinating with the landscape architect and structural engineer on feasibility and constructability, and directing renderings and diagrams for client presentations.

Hyperloop Light Freight Distribution Station **2022-2023**

Led pre-design and schematic design. Developed the initial concept and built it out in Rhino. Organized and ran design reviews with the outside design and engineering consultants.
